Crime Analysis

A set of systematic, analytical processes directed at providing timely and pertinent information relative to crime patterns and trend correlations to assist the operational and administrative personnel in planning the deployment of resources for the prevention and suppression of criminal activities, aiding the investigative process, and increasing apprehensions and the clearance of cases. Within this context, Crime Analysis supports a number of department functions including patrol deployment, special operations, and tactical units, investigations, planning and research, crime prevention, and administrative services (budgeting and program planning). --Steven Gottlieb et al., 1994, "Crime Analysis: From First Report to Final Arrest."

TO: Office of the Chief

FROM: Det. Sgt. Kurt Fasulo #63

SUBJECT: Crime Analysis Report February 2018

*During the month of February 2018, the Guilford Police Department had the following **Part 1** and selected **Part 2** Crimes reported: Reference Appendix A for further information. This information was compiled via the NEXGEN system utilizing a query of all Part 1 Crimes and select Part 2 crimes from the computer database. A full review of each queried case file report was completed.*

The Guilford Police Department investigated **824** cases for the month of February. This is a four percent (4%) decrease in calls from the previous month.

Burglary Cases

There were no reported Burglaries for the month of February. There were a number of cases of unlocked vehicles being entered and items stolen from within. These incidents would result in a criminal charge of burglary, however for reporting purposes those cases can be found in the larceny section of this report.

The number of burglaries remained the same from January to February.

There was no crime pattern developed, thus no response plan was developed.

Criminal Mischief Cases:

There was a total of eleven (11) criminal mischief cases filed for the month of February. This is a twenty-two (22%) percent increase in criminal mischief cases from January to February. Four (4) of these cases involved damage to public property, seven (7) to private property.

The times and dates reported are depicted in the graphic representation. Some of these are the time the report was filed and not the time at which the crime is being committed. Seven of the eleven cases show an accurate representation of the time these crimes were committed. The others were reported after the damage was observed and the exact time and date of the occurrence is unknown.

There was one arrest made for criminal mischief in the month of February. Three of these cases were solved, resulting in one arrest and two cases in which the complainant did not wish to pursue criminal charges against the suspect

The criminal mischief cases for this month were dispersed throughout the month and there was no pattern developed. Consistent with most months, the majority of criminal

mischievous takes place in the late evening, early morning hours on weekends. Patrols are aware of this pattern and have been alerted to identifiable characteristics of this type of crime.

Reference Appendix B for a graphic representation.

Larceny Cases:

There were twenty-six (26) larceny cases reported during the month of February. Four (4) of the twenty-six cases were solved. There were five (5) arrests made as a result of these larceny cases.

The larceny types are as follows: nineteen (19) thefts from a motor vehicle, five (5) shopliftings, one (1) larceny from a residence and one (1) general larceny.

For fifteen (15) of these larceny cases the exact date and time that the larceny occurred has not been determined. Thus, the date and time shown reflects only that of the date/time reported.

The number of larceny cases increased eight percent (8%) from January to February.

There were two (2) incidents of catalytic converters being removed from parked vehicles. An arrest was made for one of these cases with the remaining case still being investigated. The thefts from motor vehicle larcenies nearly all involved items being removed from unlocked motor vehicles. This department continues to educate the public on securing valuables through social media platforms. An alternate response plan has been discussed and is being evaluated for application and execution.

Reference Appendix C for a graphic representation.

Robbery Cases:

None reported.

Larceny of MV Cases:

There were two reported larceny of a motor vehicle incidents for the month of February. Both cases involved the theft of a motor vehicle on the overnight and are linked to a number of larcenies from unlocked vehicles. One vehicle was recovered the day following the report by New Haven Police Department. The responsible parties were arrested by New Haven PD and were charged with criminal violations by that agency. The vehicle has since been returned to the owner. The investigation is still ongoing for this other incident and the vehicle has not yet been recovered. Since the arrest there have been no further incidents of larceny of a motor vehicle.

Aggravated Assault/Simple Assault:

None reported.

Arson Cases:

None reported.

Rape/Sex offense Cases:

None reported.

Murder Cases:

None reported.

Information and Intelligence received on criminal activity:

CTIC provided LEO intelligence during this month. The New England State Police Information Network also served as a source of intelligence as did the Law Enforcement Information Exchange (LInX).

Intelligence meetings were held with the Middlesex County Detective Association, New Haven ISU, and New Haven MDT in regard to ongoing criminal activity in all attending agencies' jurisdictions. The Guilford Police Department has also received information from anonymous sources for suspected criminal activity. This department has also worked in conjunction with agencies both within and outside the State of Connecticut with regard to a number of these investigations.

Respectfully submitted,

Det. Sgt. Kurt Fasulo
